

Thursday - 23 February 1950

1. Delivered letter from the Director to Sen. McCarthy regarding Case No. 11. He supplied the name thereof. He stated that he was sorry that time had not permitted his informing us of his information prior to making same public, but that he had been rushed into his disclosures prematurely.

25X1A 2. Mr. [REDACTED] and I discussed Case No. 11 with the Director. He approved my suggestion that an appropriate letter be drafted to Senator McCarthy, first for clearance at the White House, and that this open attack on the Agency must be retracted on the Floor of the Senate and the record made clear. If Senator McCarthy is unwilling to do this, then some friendly Senator should be requested to do so.

3. Mr. Goldberg, of the Government Employees Exchange, called to inquire whether pictures of the CIA seal were available. Informed him that none were presently available in this Agency, other than the picture in the Federal Register.
